# What Is Social Media???

- Social media is the collective of online communications websites and applications for interaction, content-sharing and collaboration between individuals.
- Enables distant individual to communicate with each other.
- Examples: Facebook,Whatsapp,Instagram,etc.

# Social Media In Daily Life....

# Social Media

- People spend most of the time on social sites, making them less towards face-to-face interactions.
- Nowadays social life status is more important to individuals.

Nowadays people drop food clicks, travel and even new dress clicks to gain social media attraction.
